GRAY PUKSAND

6 November 2019

Gray Puksand initially engaged Custodian Backoffice in August 2019 to complete a review our financial business structure.

David made several recommendations that when implemented will make an ongoing positive impact on our business. He challenged us to think strategically and gave us a new framework to monitor the pulse of our business.

David's expertise in the Architecture profession allowed him to quickly understand our business and compare it to best practice, while offering a fresh perspective and pragmatic advice.

We found working with David to a rewarding experience.

Yours faithfully

A handwritten signature in dark blue ink, consisting of several loops and a long horizontal stroke extending to the right.
